

# Transformations

## Instructions:

Copy the drawing into the next square by rotating it by 90 degrees to the right.

Next reflect this half of the square into the empty half (reflecting in the horizontal axis).

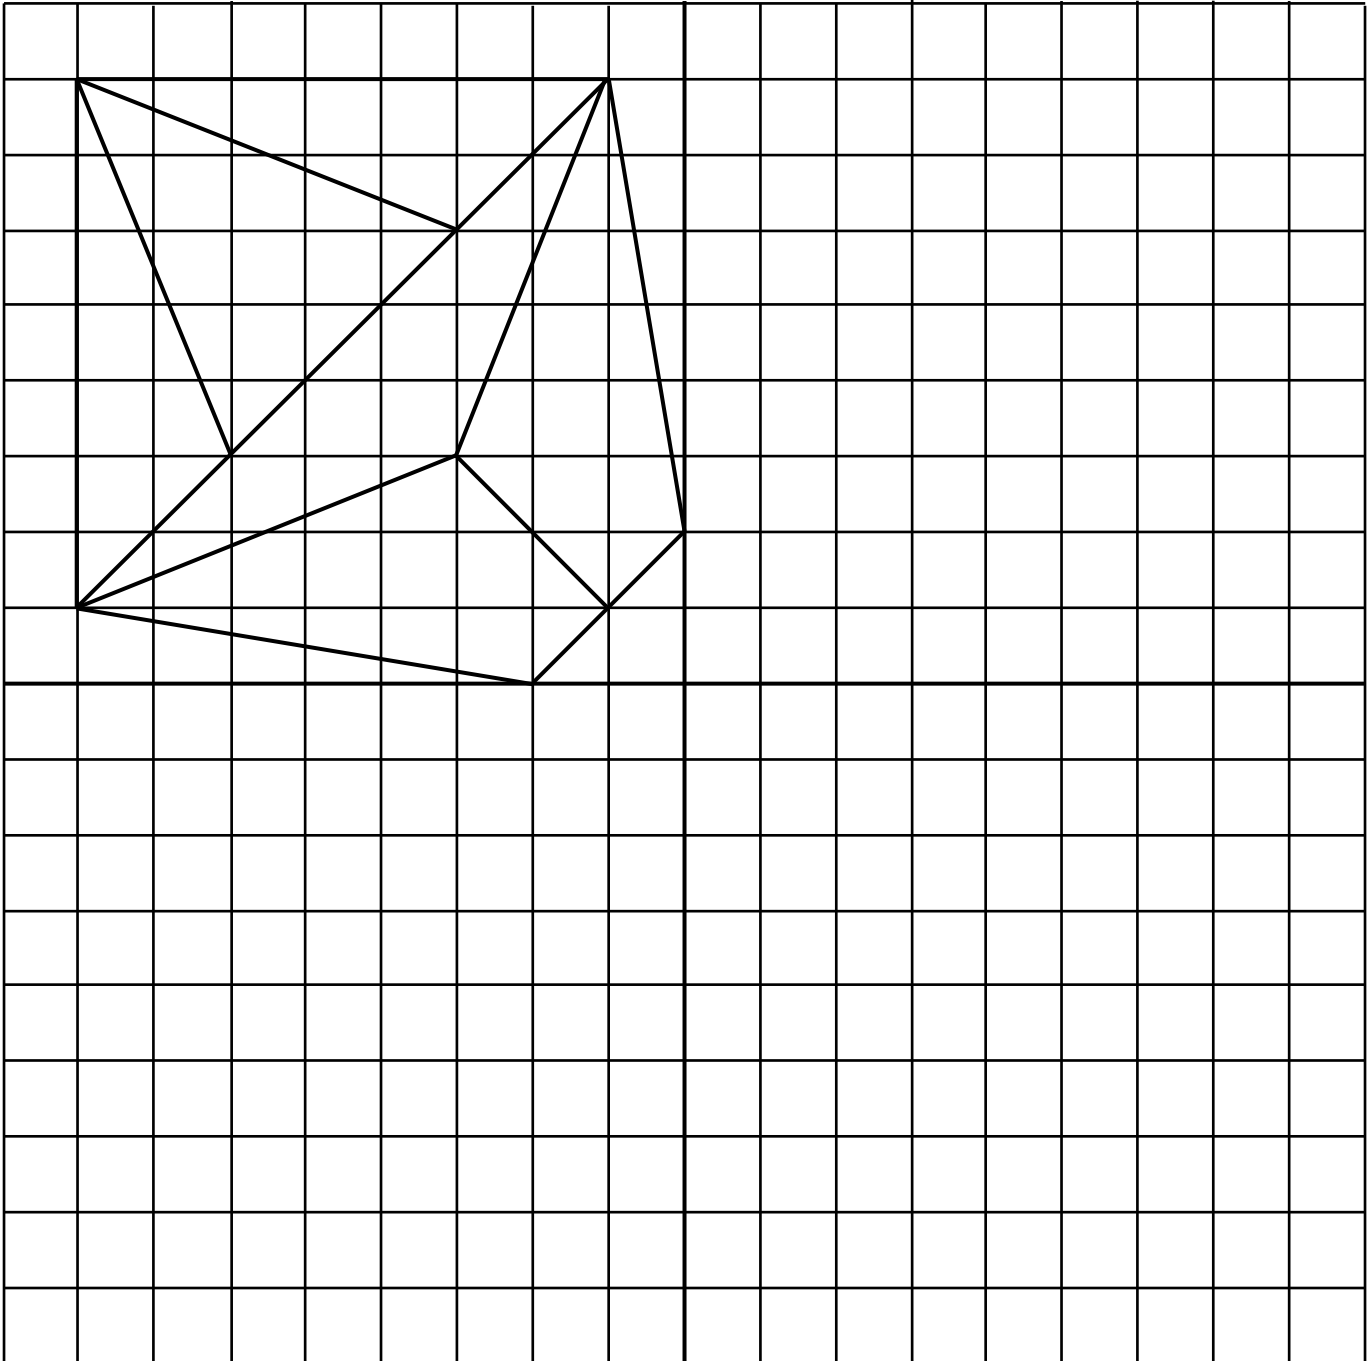

Count and complete the number of:

Scalene triangles =

Isosceles triangles =

Quadrilaterals =

Colour carefully to finish.

Transformations *Solutions*

Instructions:

Copy the drawing into the next square by rotating it by 90 degrees to the right.

Next reflect this half of the square into the empty half (reflecting in the horizontal axis).

Count and complete the number of:

Scalene triangles = 8

Isosceles triangles = 8

Quadrilaterals = 9

Colour carefully to finish.

*(includes square in the middle)*
